REBEL MATTERS - RADICAL PATTERNS

Università degli Studi di Genova – Dipartimento DSA – Stradone Sant’Agostino, Aula Benvento

Rebel Matters identifies a series of international seminars, promoted by ADD (Scuola di Dottorato in Architettura e Design – Doctoral School for Architecture and Design) in collaboration with DSA (Dipartimento delle Scienze Architettoniche – Department of Architectural Sciences) and the Faculty of Architecture of the University of Genoa. The idea is to convey a new architectural, urban and contemporary design approach based on complicity, innovation and relational involvement as a possible alternative both to iconographic marketing and show business, the disciplines traditional tools (formal, typological, commercial, etc).
